- 
- The diagram features a central white diamond shape. Eight blue horizontal bars extend from the sides of the diamond to the left and right, each ending in a blue circle containing a white number (1 through 8). These numbers correspond to the mission descriptions listed below. The background is white with a faint, light-gray network of hexagonal patterns.
- 1 Using IoT in transforming the cleaning industry
  - 2 Clean for health first and appearance second
  - 3 Minimize human exposure to contaminants and cleaning products
  - 4 Recognize cleaning as an environmental health benefit
  - 5 Commit to occupational development of technical cleaning
  - 6 Communicate the value of healthy Environment
  - 7 Reduce pollutants entering the clean room
  - 8 Establish and document routine maintenance schedules

# WHY You Should Work with Us

In delivering to our customers, we strive to achieve the following:

## › CUSTOMER DELIGHT

Exceeding our client's expectations is our top priority and we guarantee total satisfaction with our professionally managed services.

## › QUALITY

We always deliver the highest standards of cleaning and Healthy Environment solutions

## › FLEXIBILITY

We adapt to the challenging schedules of our clients .

## › HEALTH AND SAFETY

Health Safety of our clients and staff is of paramount importance.

## › ECO-FRIENDLY APPROACH

We use eco-friendly cleaning products to protect you and the Environment .

## › STATE-OF-THE -ART TECHNOLOGY

We Use the latest cleaning technologies and Techniques to enable us to delivers and exceed our clients' expectation.

## Service Portfolio & Offering:

- ❯ Data center Solutions
- ❯ HVAC Services
- ❯ Monitoring and IoT as Service
- ❯ Outsourcing & Soft Services
- ❯ Smart & Digital Healthy Environment Solutions
- ❯ Data Center Contamination control Care & resilience Service
- ❯ Data center Deep cleaning
- ❯ Test as Service
- ❯ Critical facility Cleaning and Decontamination .
- ❯ IT infrastructure Assets Cleaning
- ❯ Data Earsing ,Destruction and E-Waste Management

# Data Center Solutions

CleanTech Jordan is provider for comprehensive data center solutions designed to optimize performance, improve energy efficiency, and ensure maximum uptime. We are committed to providing tailored solutions that meet your unique infrastructure needs with our expert team combines technical expertise with a deep understanding of the challenges faced by organizations of all sizes, ensuring secure and reliable operations for your valuable data and systems .

## We offer a wide range of solutions, including:

- ❯ Access Floor Treatment
- ❯ Data Center Dismantling and Relocation Services
- ❯ Battery Replacement, Cleaning Logistics & Transportation
- ❯ Cleanup & Cable Management
- ❯ Managed Services
- ❯ HVAC Filter Replacement, Cleaning, Logistics & Transportation
- ❯ DC Epoxy and Flooring
- ❯ Asset Inventory (Radio Frequency Identification)
- ❯ Data Center Computational Fluid Dynamics (CFD) Modeling as a Service:
- ❯ Manpower Outsourcing
- ❯ E-waste Management Services

## Data center Deep cleaning

CleanTech Jordan is a leading provider of specialized data center deep cleaning services in Jordan. We are committed to maintaining the highest standards of cleanliness and hygiene in mission-critical environments, ensuring the optimal performance and longevity of your data center infrastructure. Our services are meticulously designed to meet and exceed the stringent requirements of ISO 14644, the international standard for cleanrooms and controlled environments.

## **Our Commitment to Excellence:**

Our team comprises highly trained and experienced professionals who are experts in data center cleaning protocols. We utilize advanced cleaning techniques and state-of-the-art equipment to ensure thorough and effective cleaning, without compromising the integrity of your sensitive equipment.

## **Our Commitment to Excellence:**

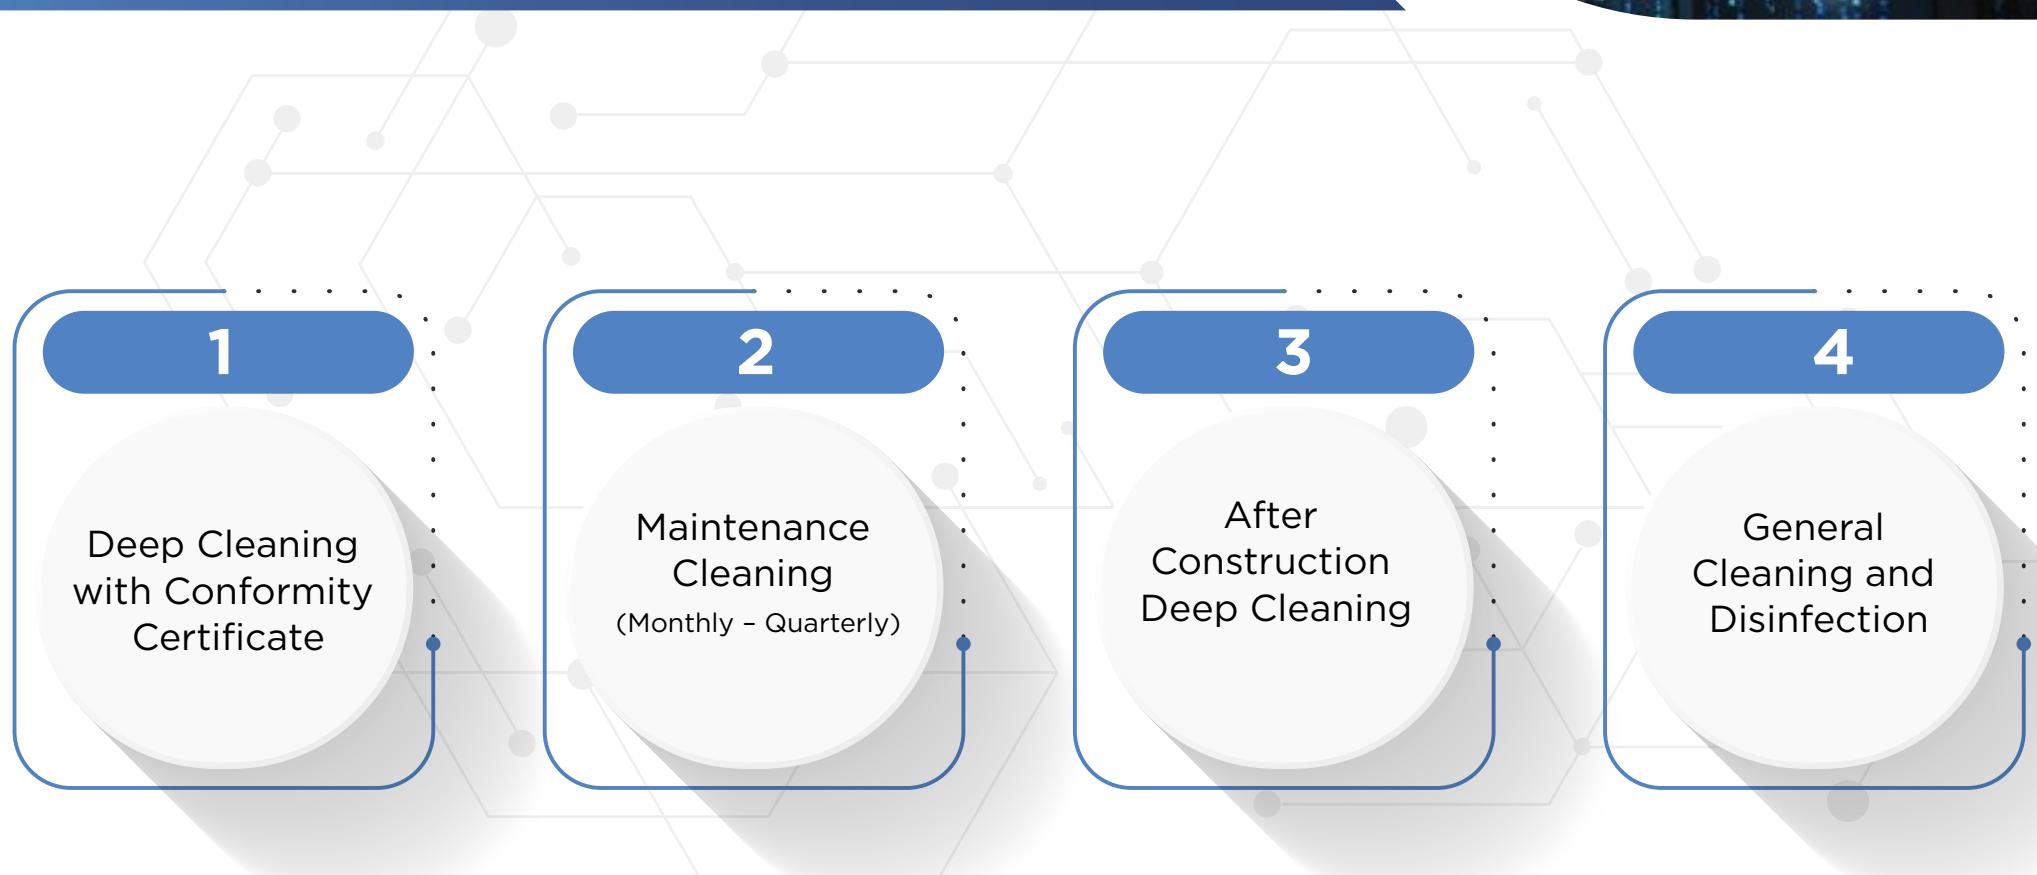

Our deep cleaning services are fully compliant with ISO 14644, the internationally recognized standard for cleanrooms and controlled environments.

This standard defines the classification of cleanrooms based on the concentration of airborne particles.

By adhering to ISO 14644, we ensure that your data center meets the highest levels of cleanliness, minimizing the. This includes:

# Our Data Center Deep Cleaning

## As Per ISO 14644 Includes :

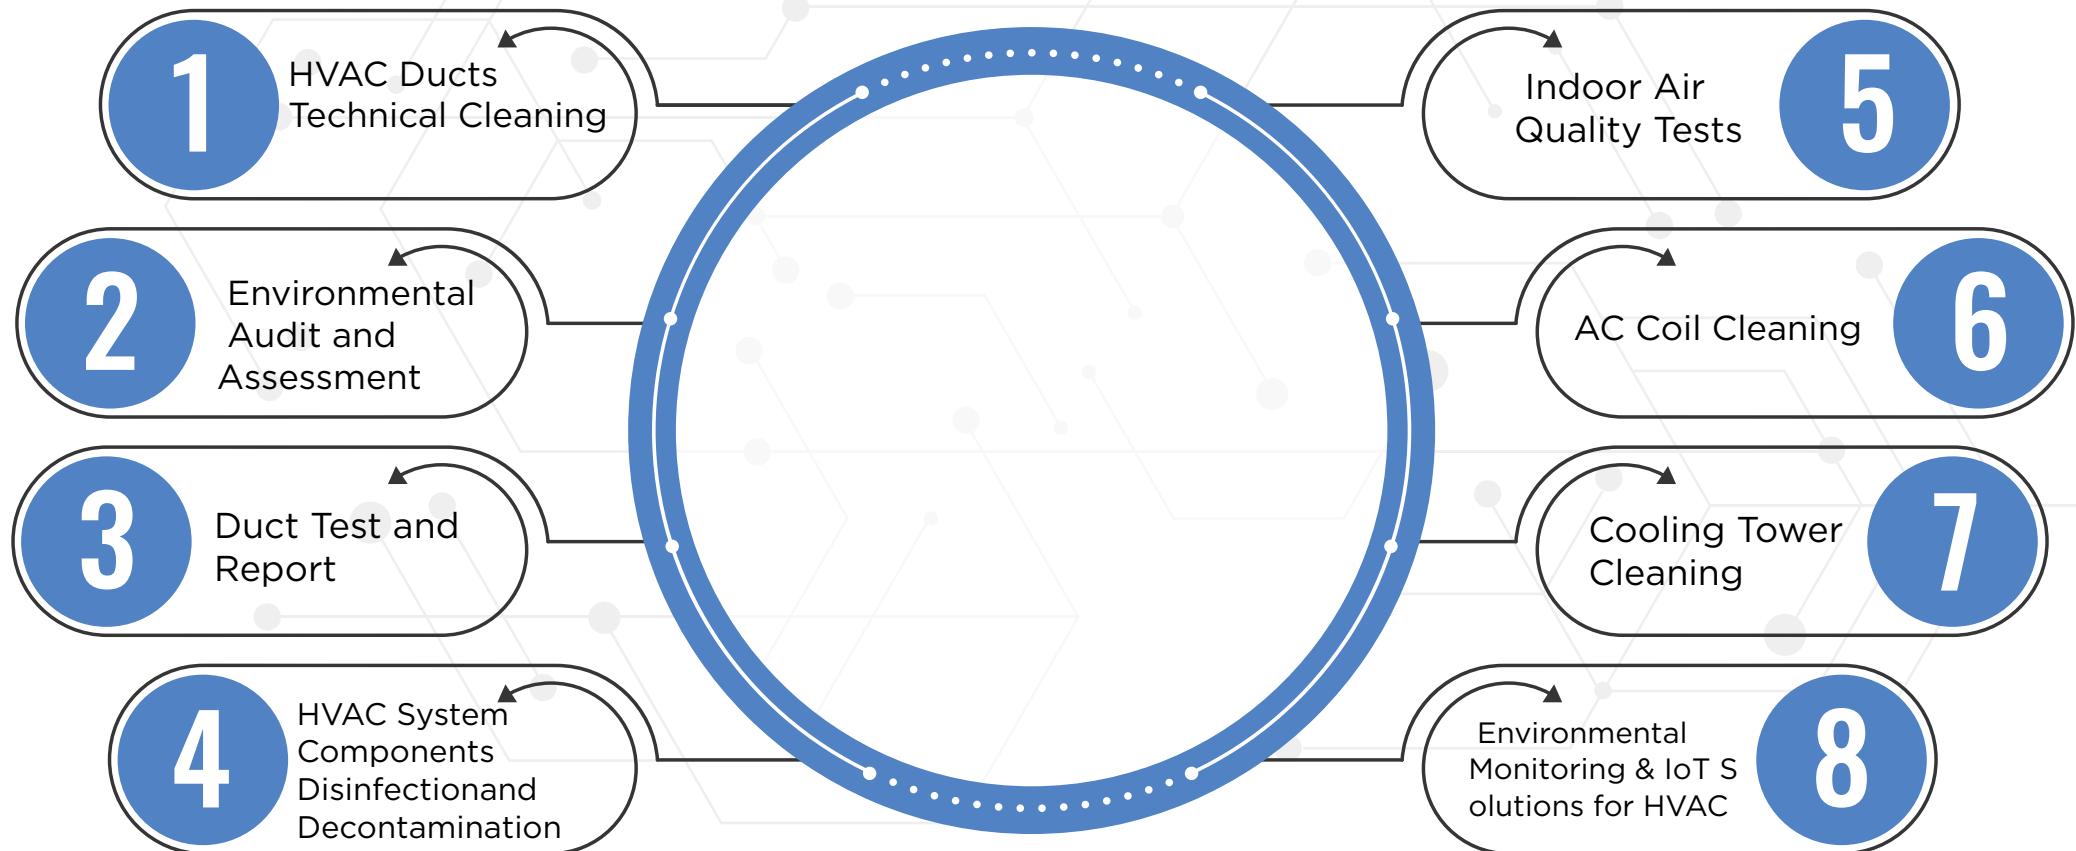

# Comprehensive HVAC Services for Data Centers

CleanTech Jordan is a leading provider of specialized HVAC services for data centers in Jordan. We understand the critical role that a stable and efficient climate control system plays in the uninterrupted operation of your data center. Downtime due to HVAC issues can be incredibly costly, leading the efficiency of your cooling system.

**CleanTech Jordan offers a comprehensive range of HVAC services designed to address every aspect of data center climate control includes :**

## **CleanTech Jordan Data Center Monitoring with IoT Solutions:**

We Provides innovative Monitoring & IoT as a Service solutions, empowering businesses to optimize their data center infrastructure and ensure seamless operations.

We leverage the power of the Internet of Things (IoT) to proactively identify potential issues, optimize resource utilization, and enhance overall efficiency, minimizing downtime and maximizing return on investment. We Also provide continuous monitoring of a wide range of parameters, enabling proactive identification and resolution of potential problems before they escalate into costly outages.

**Key Features of  
Our Monitoring and  
IoT as a Service:**

**Environmental  
Monitoring**

**Power Monitoring**

**Security and  
Access Control**

**Safety and Fire  
Detection**

**Fluid Level  
Monitoring**

**Advanced  
Sensor Integration**

**Data Analytics  
and Reporting**

# **Test as a Service (TaaS) for Data Centers Proactive Issue Identification and Mitigation**

CleanTech Jordan also offers a comprehensive suite of Test as a Service (TaaS) solutions designed to proactively identify and mitigate potential issues within your efficiency and cost savings.

## **The Test we Provide for Data Centers:**

- ⟩ Corrosion Test.
- ⟩ Thermal Mapping
- ⟩ Particle counts Test
- ⟩ Air velocity
- ⟩ Room air exchange rates
- ⟩ Electromagnetic Field Test
- ⟩ Indoor Air Quality Test
- ⟩ Airflow
- ⟩ Differential pressure
- ⟩ Temperature & humidity

# ClenTech Jordan Streamlining Your Operations Through Comprehensive Outsourcing and Soft Services

CleanTech Jordan provides outsourcing and soft services, dedicated to enhancing the efficiency and productivity of businesses across various sectors. We offer a comprehensive suite of solutions designed to reduce operational complexity, allowing you to focus on your core business activities and achieve sustainable growth.

## Our Key Outsourcing and Soft Services Include:

- ⟩ Integrated Pest Management Services (IPM)
- ⟩ General Cleaning Services for Office Spaces
- ⟩ Post-Construction Cleaning Services
- ⟩ Rope Access Cleaning
- ⟩ Window & Façade Cleaning
- ⟩ Water Tank Cleaning Services
- ⟩ Fuel Tank Cleaning Services
- ⟩ Disinfection and Sanitization Services
- ⟩ HVAC & Duct Cleaning
- ⟩ Solar Panel Cleaning
- ⟩ Waste Management Service
- ⟩ Landscaping
- ⟩ Zinc Whisker Remediation
- ⟩ Car Parking Cleaning Services

# **Smart & Digital Healthy Environment Solutions**

We provide innovative smart solutions designed to enhance operational efficiency, sustainability, and safety across various sectors.

We leverage cutting-edge technologies, including artificial intelligence, automation and real-time data analysis, to deliver tangible value and drive smarter decision making for our clients.

Our commitment to seamless integration and user-friendly interfaces ensures that our solutions are not only effective but also easy to implement and use.

Our comprehensive suite of smart solutions addresses a wide range of needs, from optimizing building management and energy consumption to streamlining logistics and enhancing safety protocols.

Our Smart and  
Digital Healthy  
Environment  
Solutions  
includes :

Assets Management  
as Service

Critical Facility Resilience  
and Digitalization

Monitoring and  
IoT as Service

Application ,Software  
and Apps

Smart Solutions

E-waste Management  
as Service

## We offer a range of specialized solutions tailored to meet the unique requirements of diverse industries.

- › Smart Elevator Solution
- › Smart Lighting
- › Stock Level Monitoring Tool for Logistics
- › AI Safety Management Platform
- › Computer Aided Facility Management (CAFM) Software
- › Asset Discovery and Inventory Tools
- › Data Center Infrastructure Management (DCIM)
- › Smart Energy Management
- › Asset Tracking Platform
- › AI Warehouse Management Platform
- › Facility Applications
- › Radio Frequency Identification (RFID) for Data Center Asset Management
- › Computational Fluid Dynamics (CFD)
- › Building Management System (BMS)

# CleanTech Jordan Your Responsible Partner in E-Waste Management

We offer a complete suite of solutions to address the entire lifecycle of your end-of-life electronic equipment. Our commitment to secure data destruction and environmentally sound practices sets us apart. We don't just dispose of your e-waste; we manage it responsibly, minimizing environmental impact and maximizing data security ensuring compliance with all relevant data security and environmental regulations.

## Our E-Waste Management Services Include:

- Secure Hard Drive Erasure and Overwriting
- Hard Drive Destruction
- Electronic Waste (E-Waste) Disposal
- Data Wiping with Certificate
- Secure SSD & IT Asset Shredding
- Hard Drive Destroyer with Destruction Verification System
