The Evolving Threat:

Why Traditional Approaches Fail & The SOC Challenge

Average Breakout
Time

90 Mins

7 Mins

Attack Volume & Speed (2026–2020)

Rapid Adversary Speed:

Attacks escalate from initial breach to compromise in minutes.

Alert Fatigue:

Security teams overwhelmed by thousands of daily alerts.

Tool Sprawl & Silos:

Disconnected systems and tools create visibility gaps.

Skills Gap:

Shortage of expert security analysts.

The Unified SOC Advantage: Unrivalled Value & Protection

Superior Security with Cost-Effectiveness & Full Control

Superior Detection

Comprehensive XDR visibility across your entire estate

Blazing Fast Response

Automated orchestration reduces Mean Time to Defend powered by global response (MTR)

Cost Efficiency

Enterprise-grade security without proprietary operations and lock-in data

Compliance Made Easy

Integrated reporting and audit trails for regulatory adherence

One SOC. Total Visibility. Complete Control.

Cyber Fusion Center Architecture Overview

An integrated, AI-powered security architecture built to detect, analyze, respond, and strengthen your digital ecosystem.

DETECTION LAYER

SIEM, XDR, FIM, NDR, WDR

Collects and correlates telemetry from across infrastructure, endpoints, networks, applications, and cloud to detect real-time threats.

INTELLIGENCE LAYER

Threat Intelligence, IOC
Enrichment, Contextual Scoring

Enriches events with global threat intelligence, IOC feeds, asset context, and AI-driven risk scoring to identify true threats.

RESPONSE LAYER

SOAR, Workflow Automation,
Auto-Remediation

Automates incident response with playbooks, orchestration, and auto-remediation to reduce MTTR and strengthen resilience.

MANAGEMENT LAYER

Incident Management,
ITSM, SLA Tracking

Streamlines incident lifecycle management, service workflows, SLA monitoring, and cross-team collaboration.

GOVERNANCE LAYER

Compliance, Posture Management,
Risk Visibility

Ensures compliance, monitors security posture, manages risks, and delivers full visibility across the digital environment.

SERVICE LAYER

Managed SOC, Advisory,
Resilience, Testing, Support

Provides 24/7 managed security services, expert advisory, resilience services, testing, and continuous support.

Unified Visibility
Across the digital ecosystem

Smart Detection
AI-powered threat detection

Automated Response
Faster actions.
Lower impact.

Stronger Security
Proactive. Predictive.
Resilient.

Business Resilience
Protect operations.
Build trust.

Automated Brute-Force Attack Response

Threat Neutralized in Seconds

AUTOMATED DETECTION

INSTANT VALIDATION

RAPID RESPONSE

MAXIMUM PROTECTION

MISP: Proactive Defense with Global Threat Intelligence

Threat Intelligent Feed

Community-Driven

Leverages shared threat intelligence from global security communities

Automated IoC Ingestion

Continuous updates with new malicious IPs, domains, file hashes, etc.

Contextual Alerting

Enriches Wazuh alerts with threat context, reducing false positives.

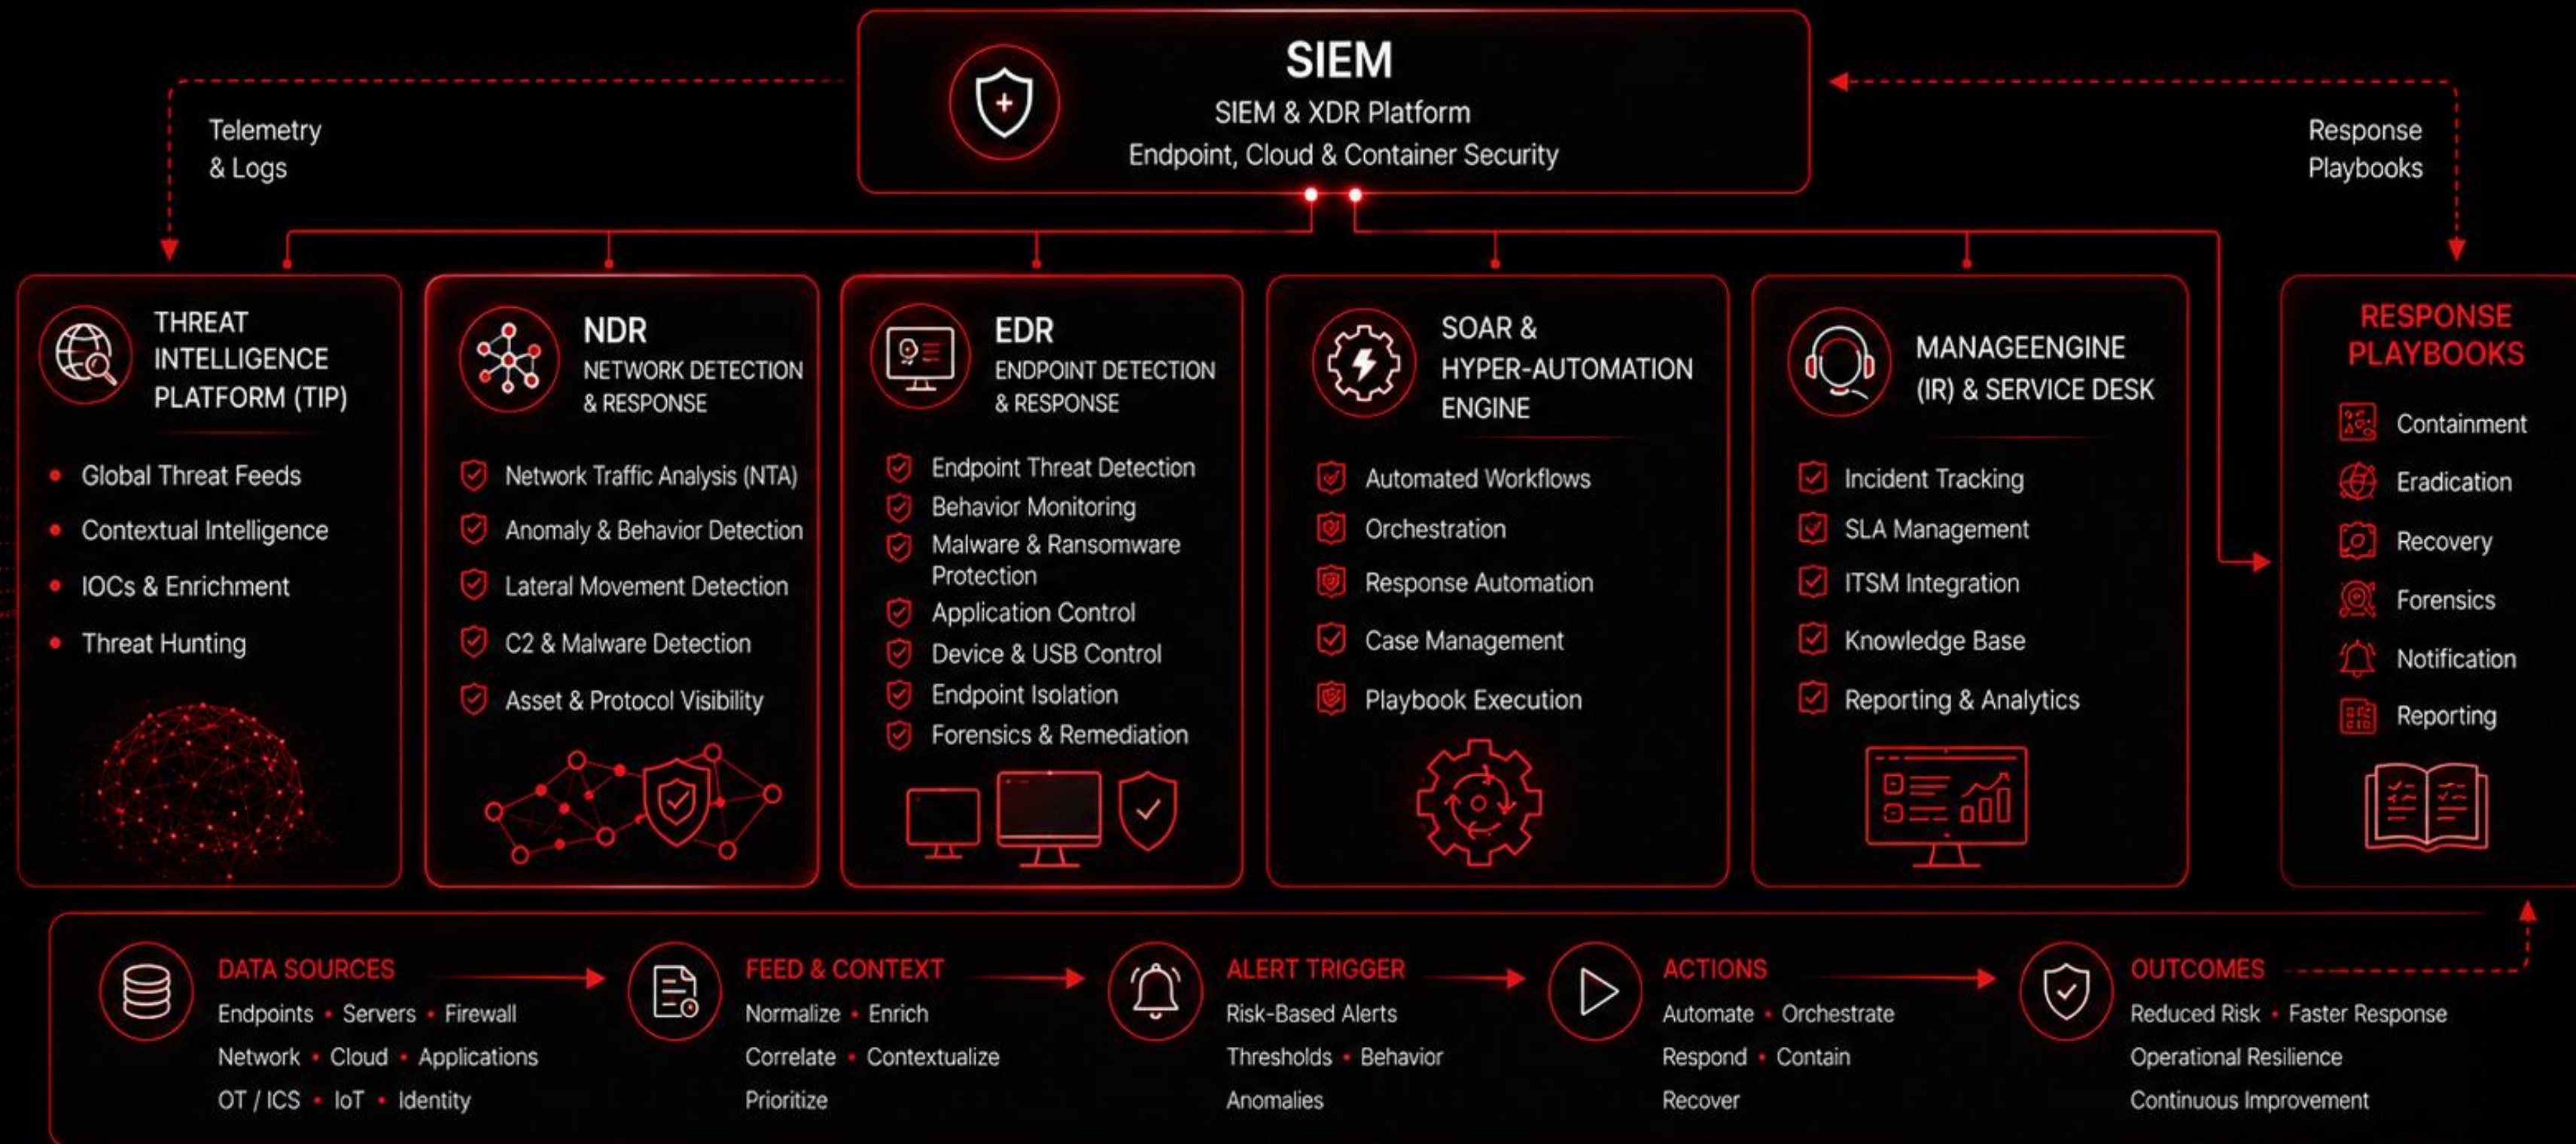

Turning Data into Actionable, Predictive Security

Our Core Architecture: A Synarrastic Security Stack

A modular, integrated approach for maximum visibility and automated response

UNIFIED VISIBILITY
Across IT, OT & Cloud

**NETWORK DETECTION
& RESPONSE (NDR)**
Real-time Threat Detection
across the Network

**ENDPOINT PROTECTION
& RESPONSE (EDR)**
Detect, Investigate & Respond
across Endpoints

**AUTOMATED RESPONSE
& ORCHESTRATION**
Reduce MTTD & MTTR

INTEGRATED WORKFLOW
SIEM • TIP • NDR • EDR
SOAR • ITSM • ManageEngine

OPERATIONAL EXCELLENCE
Efficiency • Compliance • Resilience

Intelligent Automation: From Alert to Resolution in Seconds

Automating the full incident lifecycle for unparalleled speed and efficiency

n8n: Hyper-Automation & Orchestration

Automated workflows for environment containment and notification

Reduces Mean Time To Respond (MTTR) from minutes/hours to seconds

Eliminates manual toil and human error

SIEM Alert Trigger
(e.g., Suspicious Login)

Automated Workflow

SOAR Automation Engine

Enrich (Lookup)

Decide (Logic)

Act (Block/Isolate)

Result: ~30-Second Response

ManageEngine: Integrated Incident Management

ITSM IR Platform
Incident & Ticketing
with SLA Tracking

Centralized incident tracking
and case management

SLA enforcement and audit
trails for compliance and
collaboration

Automate Faster

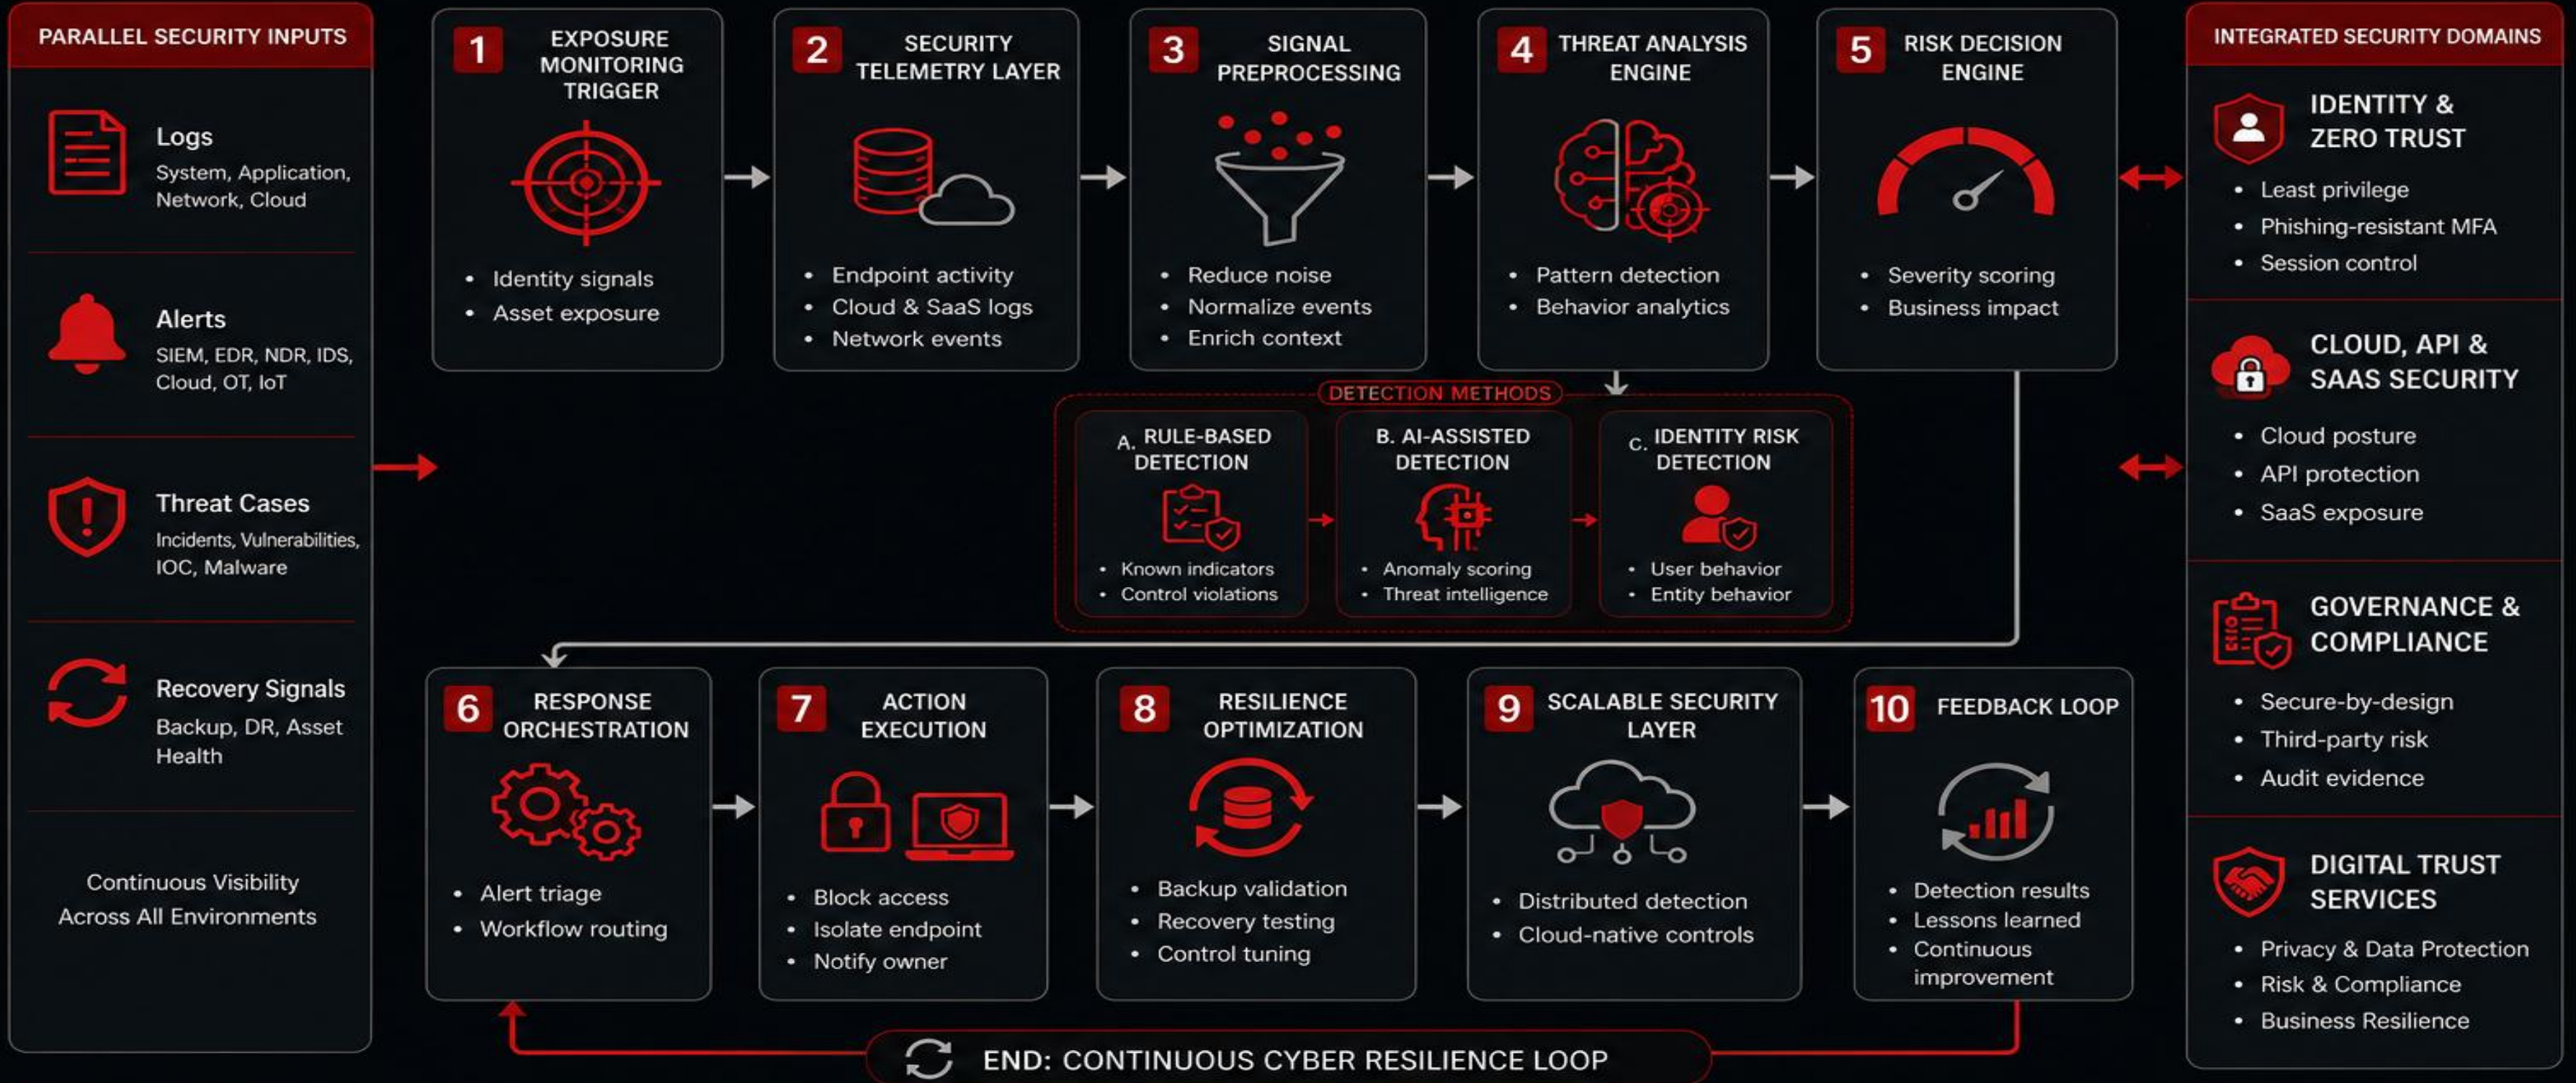

Respond Smarter

Reduce Risk

Webnet Ally Value Proposition

- ✓ Unified Cyber Fusion Platform (SIEM + XDR + SOAR + GRC)
- ✓ Transition from SOC → Digital Trust Architecture
- ✓ AI-driven automation & response
- ✓ Risk-based cybersecurity aligned with business outcomes
- ✓ Full compliance alignment (KSA, UAE, Global standards)

- ✓ Advanced Cybersecurity Services
- ✓ Services powered by Cyber Zones
- ✓ Solutvine CyberFones

KEY SERVICE SCOPE

-  **24/7 SOC OPERATIONS**
Round-the-clock monitoring, alerting and escalation
-  **THREAT DETECTION**
AI-driven use cases, correlation and threat intelligence
-  **INCIDENT RESPONSE**
Rapid triage, investigation, containment and RCA
-  **AUTOMATION & SOAR**
Playbook automation, response orchestration, ticketing
-  **VULNERABILITY MANAGEMENT**
Continuous vulnerability scanning, prioritization and reporting
-  **COMPLIANCE SUPPORT**
PDPL, NCA ECC, ISO 27001 alignment and audit readiness
-  **REPORTING & DASHBOARDS**
Real-time dashboards, daily/weekly/monthly reports
-  **THREAT HUNTING**
Proactive threat hunting and attack surface analysis

POWERED BY INTEGRATED PLATFORM

24/7 SOC OPERATING MODEL

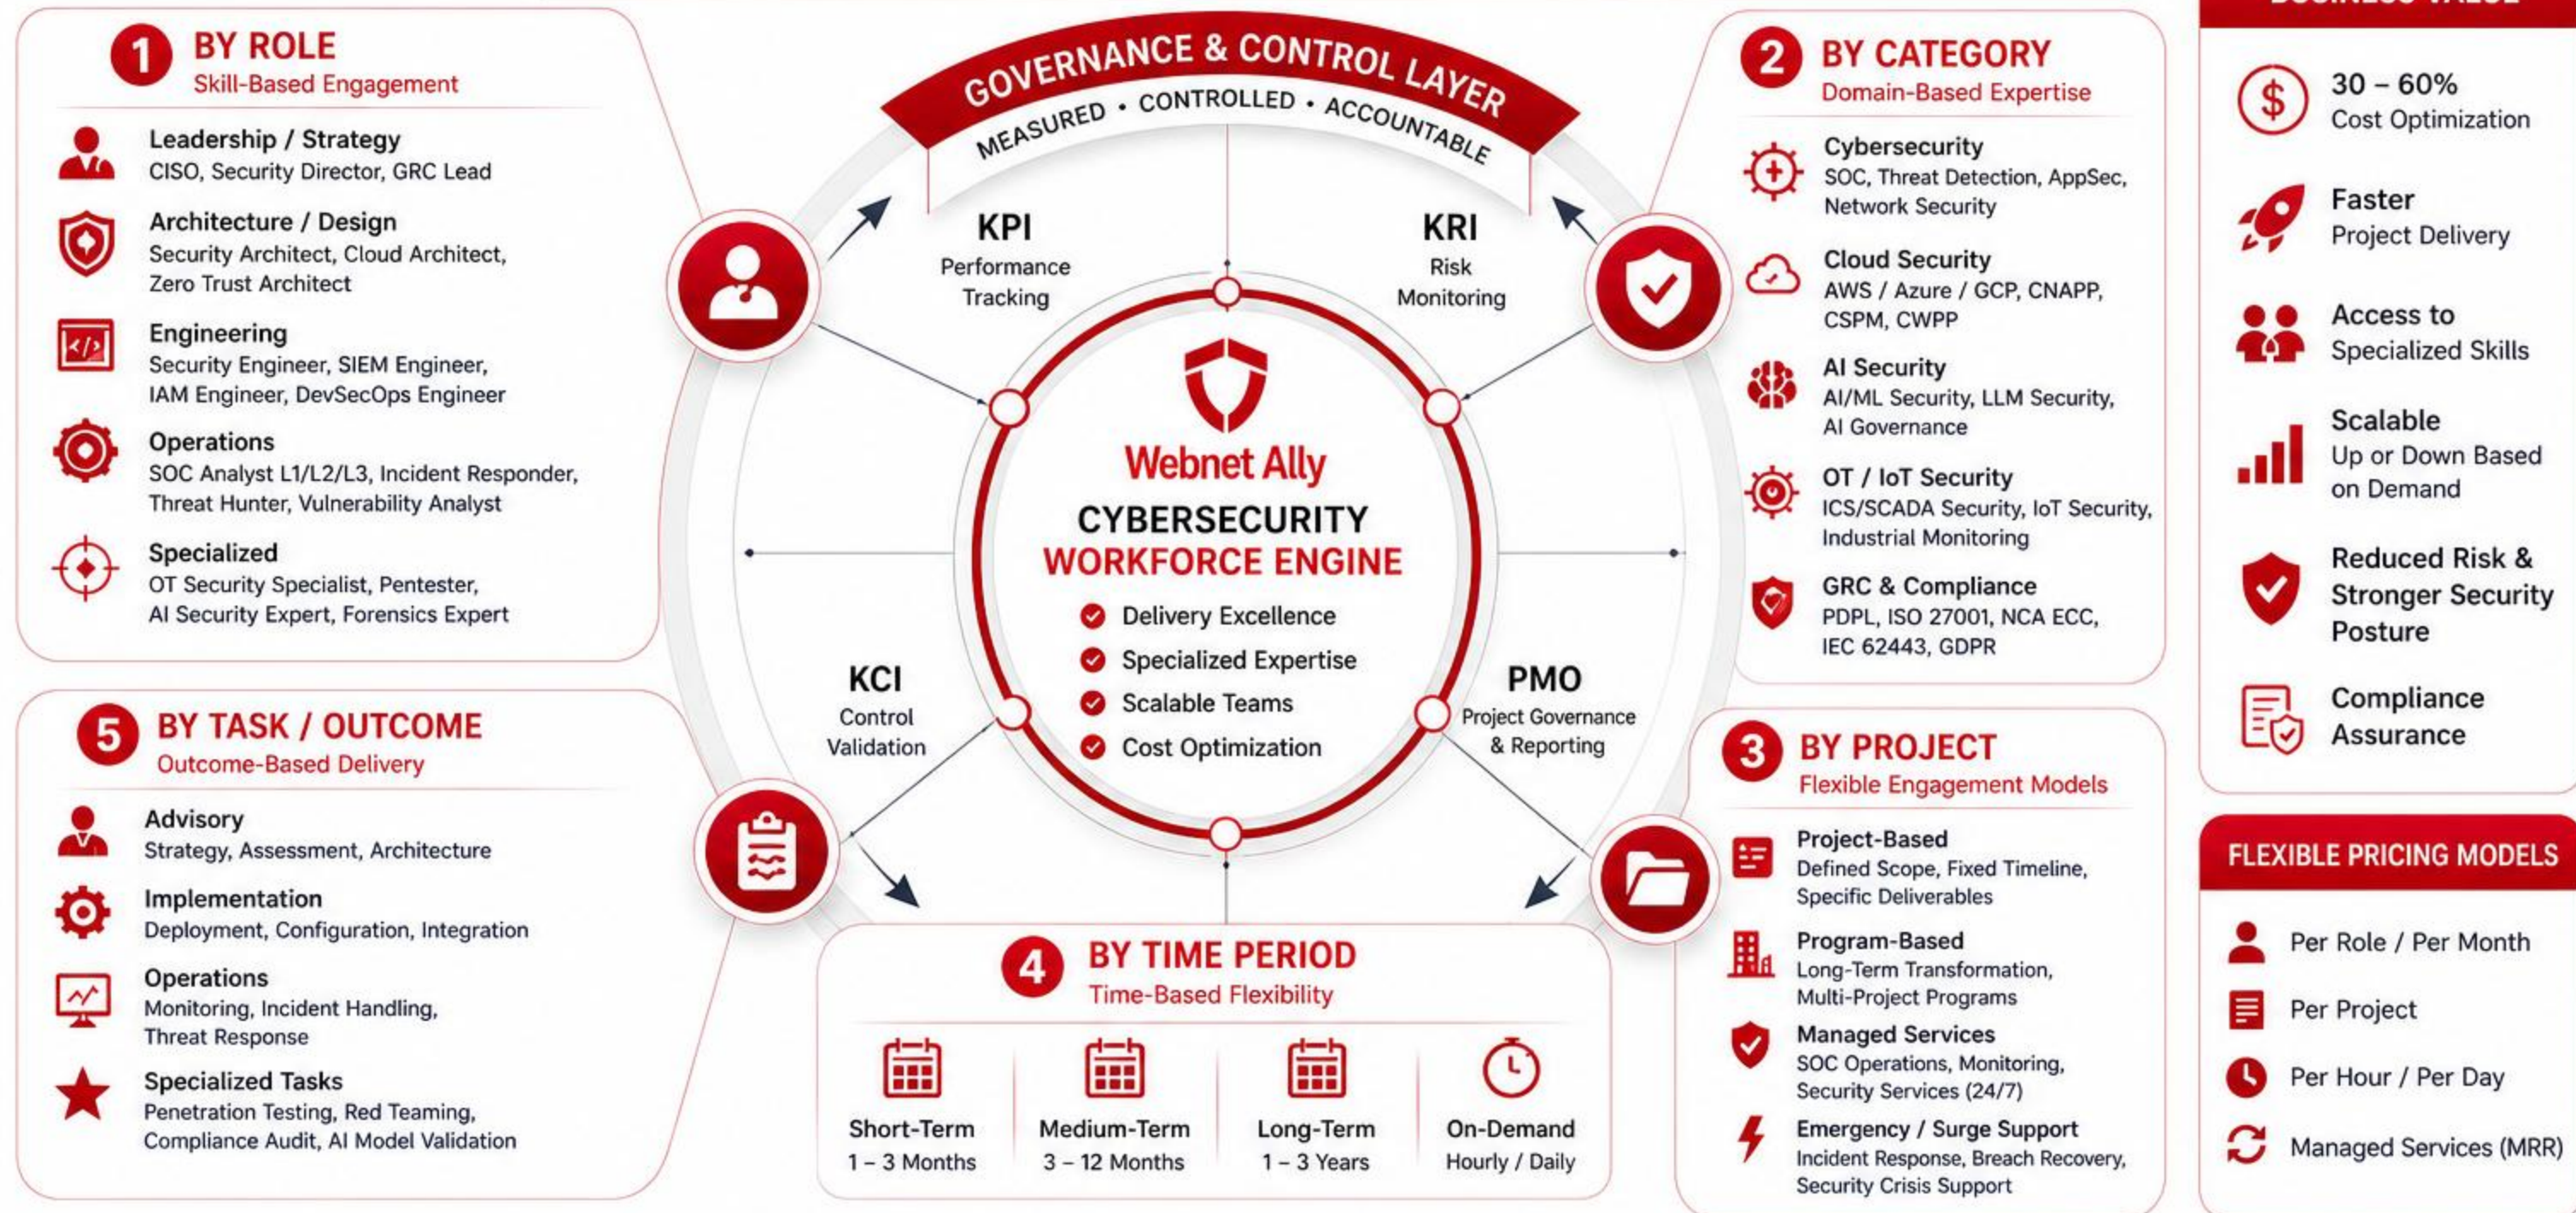

SERVICE TIERS

-  **ESSENTIAL SOC**
Monitoring + Alerting
24/7 monitoring, alert triage, ticketing, basic reporting
-  **ADVANCED SOC**
Detection + Response
Advanced detection, incident response, threat intelligence, reporting
-  **CYBER FUSION SOC**
Full + AI + SOAR + Threat Hunting
AI-driven detection, SOAR automation, threat hunting, advanced analytics
-  **MANAGED SECURITY PLATFORM**
End-to-End MSSP
Complete managed security with integrated platform, compliance and resilience

BUSINESS VALUE

-  **24/7 Threat Visibility**
-  **Faster Incident Response**
-  **Reduced Security Cost (30–50%)**
-  **Compliance Assurance**
-  **AI-Driven Efficiency**
-  **Expert SOC Team at Your Service**
